1/4-CUT HANGING TAB TEMPLATE

Landscape body 11 × 8.5 in, bound at top · 4 tab positions along the bottom · tab extension 0.5 in · finished sheet 11 × 9 in

HOW TO USE THIS TEMPLATE

1. Each dashed outline is one tab position — a 1/4 cut gives 4 hanging tabs per set (bank).
2. Tab text area: about 2.50" wide × 0.5" deep. Keep text 0.1" from edges.
3. Bind or drill on the top 11" edge; the tabs hang below the bottom edge of the page.
4. Need more tabs than positions? Sets repeat in additional banks (see tabzoola.com/tab-cut-calculator).
5. Printing your own labels? Align to the dashed outlines. Or skip the DIY —
   Tabzoola prints, Mylar-reinforces, punches and collates custom hanging tabs to order.
