LEGAL 1/10-CUT TAB TEMPLATE

Legal body 8.5 × 14 in · 10 tab positions · 13 in working length · 0.5 in extension · finished 9 × 14 in

TAB 1
1.30" tall

TAB 2
1.30" tall

TAB 3
1.30" tall

TAB 4
1.30" tall

TAB 5
1.30" tall

TAB 6
1.30" tall

TAB 7
1.30" tall

HOW TO USE THIS TEMPLATE

1. Each dashed outline is one tab position — a 1/10 cut gives 10 tabs per set (bank) on a legal sheet.
2. Tab text area: about 1.30" tall × 0.5" deep — a legal side tab is taller than the same cut on letter, because the tabs run down the 14-inch edge (13" of working length against 10" on letter).
3. Bottom tabs are different: they stay on the 8.5-inch edge, so a legal bottom-tab set has the same tab sizes as letter on a page three inches longer, and finishes 8.5 × 14.5.
4. Print at 100% / Actual Size — any scaling moves every tab position.
5. Printing your own labels? Align to the dashed outlines. Or have them made: Tabzoola prints, Mylar-reinforces, punches and collates legal-size sets to your own section names, 25-set minimum, priced before you order. Legal prices in the designer alongside letter — choose Legal as the sheet size. Made in Illinois.

TAB 8
1.30" tall

TAB 9
1.30" tall

TAB 10
1.30" tall

Scan: your titles on this exact legal cut, priced instantly — printed, Mylar-reinforced, punched and collated for you.
