HOW TO USE THIS TEMPLATE

1. Each dashed outline is one tab position — a 1/9 cut gives 9 tabs per set (bank).
2. Tab text area: about 1.11" tall × 0.5" deep. Keep text 0.1" from edges.
3. Need more tabs than positions? Sets repeat in additional banks (see tabzoola.com/tab-cut-calculator).
4. Printing your own labels? Align to the dashed outlines. Or skip the DIY —
   Tabzoola prints, Mylar-reinforces, punches and collates custom tabs: 25 sets of 5 is $5.56 a set, $1.68 at 250.
